

7/8" Corrugated Panel

Our 7/8" Corrugated profile is one of the longest standing metal profiles around. Its wave like corrugation makes it the ideal profile for a wide array of projects, whether it be agricultural, commercial or residential. The corrugated ribs at 2.66" on centre and 7/8" high give this profile a strong appearance on any application.

7/8" Corrugated Application/Specifications

Recommended Accessories

Recommended Accessories	
Flashing	Closures
See Flashing Section	7/8" Corrugated
Fasteners	
MG#14x1.25" (wood)	Miscellaneous
MG#14x2" (wood)	Butyl Tape
MG#10x1.5" (wood)	Roof Boots
MG#10x2" (wood)	X Seal
MD#14x__" (metal)	Metal Roof Sealant
ST#14x7/8" (laps)	Synthetic Underlayment

Recommended Fastener Patterns

Recommended WALL fastener pattern

Recommended ROOF fastener pattern

Side Lap fasteners recommended when installing as roof panel

Pre drilling sheets in bundles is not recommended during installation for any steel sheets as this can cause hot burs which can rust to the pre painted or bare sheet and create a rusting appearance around drill holes
